## What is the 25x'25 Alliance?

The 25x'25 initiative has evolved into one of the premier renewable energy advocacy campaigns operating in the country today. Backed by a diverse array of over 1,000 endorsing partners, 35 current and former governors, 16 state legislatures and the U.S. Congress through the Energy Independence and Security Act of 2007, the 25x'25 Alliance has grown into a powerful coalition united behind the goal of securing 25 percent of the nation's energy needs from renewable sources by the year 2025 while continuing to produce safe, abundant, and affordable food, feed and fiber from America's working lands.

In November 2015, 25x'25 transitioned to become a special project of Solutions from the Land (SfL), an offshoot of the 25x'25 initiative that was conceived and led by a team of respected agriculture, forestry, conservation, academic and industry leaders who came together in 2009 to explore integrated land management solutions that can help meet food security, economic development, climate change and biodiversity conservation goals. SfL's mission is to support the full range of goods and services that sustainably managed farms, forests and ranches can deliver from the land - food, feed, fiber, energy and a wide range of ecosystems services. 25x'25 is the foundation of SfL's clean energy platform. SfL is a tax-exempt organization under section 501(c)(3) of the Internal Revenue Code.

## Why should you support 25x'25?

America has an opportunity to chart a new course for its energy future – one that uses our abundant natural renewable energy resources to steer us to new economic opportunities and jobs, more robust national security, and a cleaner, healthier environment. Our nation's farmers, ranchers and forest land owners have set a bold goal to provide solutions from the land to meet our energy needs.

While 25x'25's catalytic leadership has directly contributed to these gains, much remains to be done in the final decade leading up to 2025. Our nation still lacks a comprehensive, long-term, strategic plan to guide national energy development. 25x'25 champions must rally, unite and drive home the good news about renewable energy and the economic, environmental, national security and public health benefits that the biofuel, bioenergy, solar, wind, geothermal and small scale hydro industries are providing to the nation.

## Join Today!

For rural America, renewable energy is too big to fail. It will require hard work to attain the 25x'25 national energy goal. We are ready to work with you to strengthen the industry going forward. Joining is easy. Simply visit the 25x'25 web site ([www.25x25.org](http://www.25x25.org)) and click on the "Join Now" button or complete and return the following form.
